KNIFE
FOLDING / POCKET

A selection of premium quality Pocket Knives.
Every day carry knife.

Pocket knives are essential equipment for the outdoors, it's hard to make it through a day without needing a blade at some point. Its uses are wide-ranging and varied.

- Mack Schmidt specializes in creating high-quality pocket knives for everyday and outdoor activities. Whether you're building a lean-to, opening a box, slicing fruit, prying apart clamshell packaging, making kindling for a fire, a pocket knife is a do-it-all tool that makes life hassle-free.
- Mack Schmedit knives are made from only the finest materials, ensuring that they are able to withstand the rigors of use in zeven the toughest conditions. Each product is carefully crafted with precision and attention to detail.
- Mack Schmedit knives have a unique ball bearing mechanisms, means these precision knives are designed to make opening and closing a seamless, premium experience. The ball bearings act as an ultra-low-friction surface that allows the knife to open and close with ease. Making it perfect for those moments when you need a knife in a hurry. Any task that requires a quick, one-handed solution can be tackled with ease.
- Mack Schmedit Blades are made from D2 steel which is an air hardening, high-carbon, high-chromium tool steel. It has high wear and abrasion resistant properties.
- Mack Schmedit Handles are G10. It's a synthetic knife handle material made of woven fiberglass fabric and epoxy resin. It is while being lightweight and easy to work with that makes it popular choice for knife handles. Most importantly, these fits your hand, comfortable grip and feels good in your pocket.
- These things make MACK SCHMIDT knives reliable, durable, efficient, and a perfect choice for the knife lover.
